description:

In Montecastillo these urban plots are located for the construction of villas. The golf course is 18 holes with more than 160 hectares of native flora and fauna. Headquarters of the Volvo Masters for 5 consecutive years, it has a driving range and putting Green, which will allow players to practice putting without having to leave the field of play. It is considered one of the Top Ten golf courses in Spain and has been designed by Jack Nicklaus.

Located 9 kilometers from Jerez, its views are spectacular. The field is relatively smooth, although it has some considerable climbs, which makes it accessible to any player. Highlights hole 18, which is located forty meters above street level and ends in a lake that surrounds the Green.
